

Grasmere Skyline Classic

29 km / 18 miles

2000 m / 6500 ft of ascent

A superb high mountain walk over some of the highest mountains in the Central and Eastern fells. Great mountain scenery with extensive views to the Isle of Man on clear days.

"If you start early when it's quiet you might see a Roe deer on the common or, as we did, spot a Golden Eagle, a rare site indeed. Another great sighting was made from the summit of Sergeant Man, looking down into Great Langdale. Here we saw three RAF transport planes flying far below, a tremendous sight. But we saw much much more."

There is no set route but a possible route can be downloaded from the LDWA website.
