One of the great things about the Hundred is that, as soon as one person has an idea, others dive in to help. People who didn't previously know me messaged me out of the blue asking to join the committee; others tracked me down at the AGM, or in one case in the middle of the Corvedale Cake Walk, to offer their group's services running a checkpoint.

We hope that all those who marshalled over the weekends of both the marshals' walk and main event have been acknowledged in the preceding pages; if we have missed anyone we sincerely apologise. We would also like to thank the following for their help, both during the planning process and the event itself:

All the caretakers, booking secretaries and committees of the **checkpoint venues**, who went out of their way to accommodate us even when the shifting HQs left us asking to change the hire hours several times; several of them agreed to waive their usual hire rules in order to allow us to use the buildings at night. In particular, **James Preston** of Birmingham Moseley RFC was unfailingly helpful; we contacted him frequently in the lead-up to the event asking if we could have something or other else, and the answer was almost always yes. There were various other venues which had also been happy to accommodate us, but which we ended up not using due to the route changes.

Birmingham City Council, Worcestershire County Council, the Canal and River Trust, Stratford-upon-Avon District Council, Warwickshire Wildlife Trust, Warwick District Council, the University of Warwick and Coventry City Council gave us permission for the route to use their land.

Local voluntary groups – **Alvechurch Village Society; Redditch, Stratford and Solihull Ramblers; Shakespeare's Avon Way; the Millennium Way; Kenilworth Footpath Preservation Group; A Coventry Way Association;** and the **Heart of England Way Association** – maintain the footpaths in the area. Without their work the route would have been a lot more hazardous: some extremely dodgy stiles were replaced, and overgrown paths cleared, shortly before the event. The **University of Warwick** also repaired a stile on their campus, and the **Canal and River Trust** surfaced a section of the Grand Union Canal towpath which had previously been particularly slippery.

The **local landowners and residents** whom we notified that the event would be passing through were universally supportive of it (if in some cases bemused that anyone could be crazy enough to attempt to walk 100 miles). One even asked if it would be passing his house again next year!

Richard Weremiuk of Track Trail set up the trackers, answered our various queries about them and offered extra services, as well as overseeing proceedings during the weekend itself. The tracking system proved invaluable both in the general running of the event – enabling checkpoint teams to tell in advance when they would be busy – and in locating lost entrants: on the marshals' walk, one who had to retire in between checkpoints was unsure of his location, but his tracker enabled one of the transport team to find him.

No Hundred is organised completely from scratch, but builds on the work of others who have done the job before. Among members of previous organising committees, **Janet Pitt-Lewis, David Morgan, Graham Smith, Michael Headley, Bill Milbourne, Tony Willey, Aaron Hookway, Adrian Gosling and Peter Poppy** were happy to share their acquired wisdom.

On top of his committee role, **Dave Powell** also gave the event free use of his firm's removal vans, along with much of his own equipment.

David Findel-Hawkins, Merrian Lancaster, David and Linda Hood, Kevin Pearson, Keith Warman and Neil Bromley tested out the draft route description and provided feedback which was incorporated into the final version. **Keith** gave further help in the last few days before the event, having identified that there were new roadworks close to the route and checking that they did not block it.

In his role as 100s Recorder, **Keith** supplied data on past 100s which aided us in the planning of the event; notified us of those entrants who would be aiming for awards for 10, 20 or 30 completions; and provided the statistics mentioned in the pre-start speech.

Kevin Pearson also gave us considerable help with mapping and GPX files, and has assembled this report.

The **LDWA IT team** helped set up the website and committee member email addresses.

John Whitworth did the necessary liaison work with local police forces.

As well as his work with the media team over the event itself, **Simon Pipe** put together two excellent preview videos.

The **organisers of the Grand Union Canal Race** worked with us to ensure that entrants on both events were aware that the other was taking place and the two could coexist harmoniously.

Raye Powell is never to be seen at an event itself, but is always heavily involved in the catering preparation – a considerable proportion of what was served at HQ was her creation.

Luton Town FC did us a favour by beating Coventry City in the Championship play-off final, saving entrants from having to battle their way through crowds of celebrating Coventry fans when they reached the city centre on Sunday!

Thanks above all go to the **event committee**. Some members do not appear in the main list because they stood down before the event, but made valuable contributions in the earlier stages: **Robin Richmond** in particular did excellent work as treasurer for most of the duration of the planning process, while **Janet Pitt-Lewis, Dave Pettifer, Julie Welch, David Adams** and **Pam Manning** were also members for part of it. Those who remained to the end weathered the storm of the last few months to ensure everything was ready and the event ran smoothly. The work of some members was obvious to entrants: the route, description of it and the reflective markers which aided night navigation – all universally appreciated – were all down to **Anne Wade** as route co-ordinator, while the efforts of the catering team also met with approval. Other roles are more “behind the scenes”, but no less crucial – entrants might not see the work which goes into co-ordinating transport during the event, but they would certainly notice if there was no food at the checkpoints, or if they had to retire and there was no minibus back to HQ. All of them have poured their heart and soul into the event, and it could not have happened without them.

Michael Jones – EBB 100 - Event Chief Organiser
