This information will be held by the teams helping to plan and run the event and will be erased after any report and results have been published.

I understand that the personal information submitted as part of this entry form will be held by the event organisers for a period of up to seven years after the event is held for the purposes of managing this event only. I further understand that photographs and videos are likely to be taken at the event, which may be featured in Strider magazine, group newsletters, on LDWA websites and on LDWA social media. In addition, I understand that Summary Information\* may be published immediately and may be held in perpetuity for the purposes of providing a record of the event. I will have the right to request that all my personal Summary Information is anonymised, should I so request.”

\* Summary information is limited to the participant’s name, age, gender, postal town, LDWA membership number, event name and date, distance covered, time recorded as well as any other linked walking achievement.

Entrants should be aware that the LDWA maintains a Hundred Register (formerly the Hundred Database) held on the Association’s secure server. The Hundred Register contains names, gender, local group, age (where declared on entry forms), number of Official LDWA Hundreds started and finished, and years and times. It does NOT include addresses (postal or e-mail), telephone numbers, any declared medical conditions or any emergency contact names, addresses or telephone numbers.

Entrants who do not want their details to be stored on the Hundred Register should be aware that this will result in their name and records being completely deleted. The onus will then be on these individuals to prove they are eligible, if applicable, for the 10/20/30/40 awards.
