DESCRIPTION OF EVENT

CHILTERN ANYTIME KANTER CHALLENGE from 12th April to 31st May 2021 with a choice of 26, 18 or 13 miles routes, no checkpoints or start and end support. Complete a set of questions at known grid references by plotting your own course on foot through these points.
This Risk Assessment covers the Medium Route of 18 miles.

AIM OF RISK ASSESSMENT AND WHO IT COVERS

The primary aim of the Risk Assessment is to understand key risks around the challenge event and for challenge event organisers to demonstrate they have been mitigated to an acceptable level. Some of the key risks challenge event organisers must consider are:

- Covid-19 compliance;
- Health, safety and welfare of entrants taking part in the challenge event;
- Health, safety and welfare of local communities, including residents, landowners and the general public; and
- Reputational risk to the Local Group and LDWA.

2020 will be remembered for the year the UK was hit, along with all other nations, by COVID-19. The impact of the pandemic has been far reaching with a large number of people losing their lives or having their lives changed substantially. So, it is unlikely we will return back to 'normal' in the foreseeable future. This risk assessment is designed with this in mind and address some of the previously unknown risks around social distancing, transport, hygiene that have always been assumed as safe by challenge event organisers.

EVENT DISCLAIMER

You agree that you participate in the event at your own risk. You understand that you are responsible for ensuring that you have undertaken the necessary preparation and training to participate in the event, that you are sufficiently fit and healthy to participate and that you will comply with all relevant UK government and local (English Tiers, Wales, Scotland & N.Ireland) COVID laws and guidelines.
