The second dry spring in a row meant there was almost no mud to be found. I think someone did report a single rain drop though! The 210 entrants and 183 finishers was nearly as many as 2011 (215 and 186), but more people completed the long route (135 v 126). The weather for the marshal's walk two weeks earlier was somewhat different! Cold, rain all day turning to snow at 4pm! I think we were all suffering from mild hypothermia when we finished, I sat in the car for 20 minutes with the engine running and the heater on, Rod found the nearest PH :-)

Thanks to everyone who helped, to the Thurlow estate for allowing us to use some estate paths, and to Thurlow sports club.
