Entries: 233 Starters: 214 Retirements: 2

	33 miles	28 miles	23 miles
The first of the speed merchants landed at:	4.56	5.11	3.38
The last of the sightseers strolled in at:	10.51	10.20	8.58

By all accounts the going was good as reflected in some very fast times. We didn't get much rain during the week and so the mud had dried out for most of the way, also the sun did appear briefly over Thursley Common in the afternoon, not that it bothered anyone and we got some favourable comments about the new routes, so we'll probably keep them unchanged for the time being.

For those of you who are still wondering where the 'Punchbowl' is, this could have been viewed in its entirety only if you chose to do the 33 mile route.

Soon, we are told by the Highways Agency, a new A3 tunnel will be constructed which will go under Gibbet Hill, this will make the whole place a lot quieter and then we'll devise some new mystery routes around this area and confuse everyone in the process.

Meanwhile, congratulations to you all for taking part, we do sincerely hope you'll all come back again next time.

Results are also enclosed, if I've made a mistake then I can dream up all manner of excuses, just make contact and I will send you a replacement certificate.
