**REPORT**

The 47th edition of the Kanter returned to Hurst Green and the Kent border for the second time. There were 70 entries in all, an increase on the previous event, of which 49 were members, with 22 on the short route and 48 on the long route

Oxted has survived the long term decline in the pub industry, and boasts five pubs of which four are all in the high street of Old Oxted.

The event visited historic Westerham with its connections to Sir Winston Churchill, General Wolfe, and William Pitt. The route included sections of Vanguard Way, Tandridge Border Path, Greensand Way and the 2021 Gatliff Marathon.

The grasshopper appeared in two pub names, one of which was on both routes, it was part of the crest of the Gresham family who owned the Manor of Westerham from the time of Henry VIII until the late 17th century, and is also the logo of Limpsfield Chart Golf Club, which featured on the long route.

The weather on the day was fine with sunshine and temperatures well above average, the going underfoot had degenerated into winter ground conditions due to the large volume of rain in the Christmas holidays. All the walkers and runners managed the route in good time and finished before 16:00.

The souvenir beer mat this year was based on the acorn and oak leaf which are the symbols of Hurst Green on the village sign, and the design dated from the 1890s, to match the age of the hall.
