## COMMITTEE

Louise Cartwright	Chairperson and Saturday controller; CP7
Tony Cartwright	On-the-day registration, route description, printing; CP4
Dave Challenger	Entries; CP5
Janet Chapman	Publicity; CP1 & main meal catering
Reg Chapman	Catering / equipment, roving marshall, certificates, statistics
John Lay	CP6
Roger Moss	Marshalling; CP3
Peter Waterhouse	Sunday controller; CP2 & 7

Committee members acting as checkpoint coordinators were ably assisted by the excellent marshalls listed below. These included a 'hit squad' which travelled around several checkpoints to help at the busiest times before going on to the finish where they slept for a while before going on duty again. Also Sandra and Richard Brown, who, not only walked the whole course, but stopped off long enough to act as timekeepers at the meal stop (CP4). Their total walking time was 16hours 10 mins. To everyone we say "Thankyou". As in previous years we've received lots of compliments - the Committee is grateful to all those walkers who sent messages of thanks - we share them with all our marshalls, and apologise to anyone who has not been acknowledged.

MARSHALLS' WALK: 23rd March. The 1996 route check was a rerun of the 1995 epic, save that last year's penetrating frost was replaced by an impenetrable fog. Thanks to Betty & Peter Waterhouse for their support on Saturday, and to Reg Chapman who unfortunately became immobilised soon after Cold Harbour by an electrical fault! Not to be outdone, and despite no further support, Janet Chapman, Roger Moss, Elaine Edwards, Diane Scaife, Jill Green, Glynis Kirkpatrick, Martin Greaves, Gail & John Elrick completed in 23 hrs 11 mins.

## SURREY SUMMITS REPORT

*For the past few years reports have been written by Committee members/marshalls, so we were delighted when Michael Benison agreed to provide this year's account of the event. This was his 17th Surrey Summits, and as some of you may know, Michael not only walks the event, but also takes lots of photos, which in themselves provide an excellent record. His account makes very interesting reading.*

It is some years since we had any rain, and this year proved no exception. In fact it turned out to be one of the warmest weekends the event has ever had which may have surprised some walkers who had come from outside the South East and who had had cool and rainy weather the previous 2 or 3 days. But Saturday dawned fine and sunny for the start at Witley with Summer gear of shorts and T-shirts definitely the order of the day and extra water to be carried a sensible precaution. Dangers to look out for were dehydration, sunburn, and blisters from the harder than usual ground - quite a change from the thick mud of two years ago!

Even having taken these precautions I, like most people, was sweating profusely long before CP1 at St Martha's Hill where extra liquid was much in demand. There was a danger that they might run out but fortunately this had been anticipated and all was well. An extra drink proved a necessity for most at the top of the steep hill on to the Downs after the Shere bypass, but fortunately after CP2 at Crocknorth Farm, cloud made the weather a bit cooler before clearing again before dark to give a lovely sunset and a beautiful starlit night followed by another warm sunny morning on Sunday.

In spite of the daytime heat and clear skies, overnight visibility remained good with no mist. This enabled walkers to enjoy the fine views the Summits has to offer and made navigation easier. Indeed the event being held slightly later in Spring than usual saw the countryside at its best with lots of Spring flowers to admire including some early cowslips and the trees just about to burst into leaf. The warmth brought out the butterflies - I lost count of the number of yellow brimstones, and I saw my first orange tip of the season. The birds were in fine voice and I heard the first cuckoo of the year on the Saturday afternoon with several more later. Actually one of the reasons I first did this walk in 1979 was because my brother-in-law had enthused about the dawn chorus the previous year. Although it has not come to much some years I was not to be disappointed that first year and again this year it was one of the highlights of the walk and made a delight the stretch down past Jelley's Hollow which can often be a chore. I feel that it is a pity that the early finishers who complete the walk while it is still dark must miss this wonder of nature, but different things please different people and no doubt they have adequate compensations!

Congratulations to all those who completed the full distance, especially those doing the walk for the first time, and commiserations to those who had to retire. Hopefully they will come back and complete it another time. indeed it is always good to see people doing the walk for the first time, and discovering the delights

and horrors of overnight walking. There is something special about completing one's first really long overnight walk.

I had the privilege of walking some of the way with at least 3 'first-timers'. One of these, Joan Manners, a member of my own group, proved too fast for me and left CP3 (Headley Heath) with a faster group. The other two, Dominic and Lorna, I walked with from CP4 (Wotton) and it was good to have company all the way to the finish as I am often on my own for large parts of the later stages. Dominic finished but Lorna unfortunately had been suffering from bad blisters from an early stage, and had to retire at Holmbury (CP5). This was still a great achievement as she did not allow her problem to slow up her companions and still achieved a personal best distance.

I must also mention my friend, Richard Denby, who had the misfortune to discover at the top of Mickleham that he had left his watch at the water tap by the church at the bottom! He retraced his steps and climbed the hill for a second time, and caught us up race walking into CP3 - taking care not to run! He then proceeded to lead us all through the night when he could so easily have gone on quicker and only left us when dawn broke. He had also lent his second torch to one of his companions when his fell and broke and couldn't be made to work. This was in the true spirit of challenge walking.

Lastly, very grateful thanks to the organising committee and all the helpers, without whose devotion and hard work including lots of encouragement and splendid refreshments at the checkpoints, the walk would not have been possible. It is a great achievement to put on an event as long as this once, but to do it year after year as so many of them have done is tremendous, especially as most of them double or even treble up at the checkpoints and other tasks. The marshals do have the chance to do the walk themselves, but earlier in the year when the nights are longer and colder, the weather and ground conditions are usually worse, and the support is less, so their achievement is so much greater. Next year they will be having a well-earned rest as the logistics of organising the Surrey Summits so close to the Downsman 100 just will not be possible. Hopefully it will be back in 1998 with the possibility of a new route and we look forward to that.
