Peter Waterhouse	CP2, Finish

Without our many marshalls LDWA events would simply not take place. Like the annual '100', 100Km events require long spells at some of the later checkpoints - over 12 hours in some cases. Even so each year our 'regular' marshalls return and new people volunteer to make the event what it is. I am sure I speak for all the walkers when the Summit's Committee says a very big and sincere THANK YOU to all those who helped in so many ways to make the Summits the success we hope it will continue to be. A special thanks to Mike Mardle who first made possible Downsend School as a venue and then did so much to make it as effective as it was. If we have failed to include you in the following list we do apologise most sincerely - it is not that we did not appreciate your support!!

Marshalls Walk: 28th February / March 1st.

The Marshalls Walk was the first time the new 1998 route was walked in its entirety. In devising the route it had been walked and checked in sections only, but a complete walk out awaited the 9 souls who set off from Downsend School as dawn broke at 6.30am on Feb 28th. Besides giving prospective marshalls the chance of a 'completion' the primary purpose of the walk is to give a final check to the route before printing. Several 'adjustments' were made (particular thanks to Jon Moore on this count). Given the inevitability of some of those 'knowing' the route it is always difficult to focus on following the route description rather than one's memory!

Our first stop was at Headley Heath (the site of CP1) and then on in sunshine but a cold wind to a welcome stop in the fields before Redlands Wood. One of our party even brought a small stove and a welcome coffee was brewed. Our first real support came at Leith Hill at 40Km where Reg Chapman laid out a feast fit for a king - including hot bacon butties. Onward over the Greensand hills of Holmsbury and Pitch to find Reg again at Smithwood Common (54Km). Night fell at this point (6pm) along with the temperature as we moved off into the night. Hascombe was kind to us - very cold but no mud on the Nore Hanger! Reg again at Shamley Green for more bacon butties and onward across Farley Heath. Even the Marshalls had difficulty at the multiway junction on Blackheath - hence the underlined 'centre' in the final route description!! Up over Ranmore (and Reg) in the freezing early hours of Sunday morning for the final push over Mickleham and onto the finish. Of those who started all finished to gain not just a completion but a successful first traverse of the new route. They included Len Wilson, Jon Moore, Janet Chapman, Sylvia Nagarkar, Glynis Kirkpatrick, Gail Elrich, John Elrick, Simon Humphry and Tony Cartwright. As always thanks to Reg for his unstinting support - and the butties!

RUNNING

The Surrey Summits is one of the very few events that requires entrants to walk only. As Martyn Greaves once commented it is this rule that contributes to the challenge of the event and helps single it out from the majority that do allow running. It is a condition of entry that participants agree to abide by the rules - including no running. The vast majority of walkers do just that but this year several 'walkers' were warned about their 'walking style'. Most of these people should have known better! No disqualifications were made this year but suffice it to say that the organising committee is determined to maintain the 22 year old walking tradition of the event. There will be more 'mobile trees' next year!

Surrey Summits Report

Prior to 1996 it had become customary for the 'event report' to be written by a committee member or marshall. In that year we broke with tradition and asked one of you, the walkers, to write an account of the event from the walker's perspective. This year, and continuing in that vein, Martin Jones kindly agreed to write a few words (many of you will remember Martin as the person who provides all those little forgotten items from his stock at the start of the event). Our thanks to Martin on both these counts!

Having been away from walking for a few years I decided my return to the LDWA circuit would be the Surrey Summits. A strange choice for a North Yorkshire resident you may think, but being an ex-patriot from Surrey it seemed appropriate. I wish I had a penny for every Northerner who said 'Surrey Summits'! Are there any Summits in Surrey? Let me put the record straight. The hills in Surrey may not be as high as in North Yorkshire, but they are equally as steep, and the new route seems to have climbed them all the hard way!

The nervous excitement at Downsend School, Leatherhead, eased a little as we set off at 9.35 heading gradually uphill towards Epsom Downs, then turning South to Colley Hill for our first spectacular view of the day. The fine mist/drizzle sent some reaching for waterproofs but most didn't bother. After a steep descent we reached Headley Heath CP1. From here we had to climb again to Juniper Top and Box Hill. I surveyed yet more spectacular views whilst my companion tended to a few early blisters. A stranger walking his dog asked us what we were doing and then proclaimed us to be mad! Why do the uninitiated always say that? After another steep descent we had to negotiate some very slippery stepping stones where I understand one walker decided that the warm weather warranted a fully clothed dip. I could just imagine this poor soul squelching up the path to Ranmore Common.

After passing through Steers Field yet another steep descent en route to Chadhurst Farm CP2. I sat on a bale of straw sipping tea with a cow actually eating the bale from beneath me. The Surrey Group take you to all the best places! At Redland Wood we encountered our first serious mud, one step forward, two slides back seemed to be the order of the day here. At Buckinghill Farm - How many cross members on the gate? We spend so much time discussing which gate it should be that that we went the wrong way. Then on to Leith Hill up the steps and before we had time to recover it was up again to Holmbury Hill, then down to a very welcome CP3 at the Duke of Kent School.

Now with headtorches on, we set off uphill into the darkness to find Pitch Hill and later Hascombe Hill. At this stage we didn't care any more and were wading at time knee deep through mud. Hascombe Village hall CP4 was indeed a very welcome sight. After a hot meal it was out into the darkness again to find Shamley Green and Farley Heath, where I understand a lot of people got lost, the compass bearing was from the centre of the 7-way Junction. Then on to Albury Cricket pavilion CP5. Creeping through Abinger Hammer at 4.30am we faced another climb up to Ranmore Common. The sun rose just as we got in to CP6 in a car park (very salubrious) then down again before the final sting in the tail up to Mickleham Trig. We had cracked it now, just a 4 mile trudge back to the school. Thanks to Doug from Essex and Herts group, (my companion through the night section).

In short, a very tough scenic route. Friendly, helpful staff. A cracking good day out!

Martin Jones (LDWA 11345)

Heard on the event:-

A late arrival at the kit-check - "Batteries? I thought you would still be selling them at 10am."

Somewhere near Boxhill(!!) "do you get disqualified for swimming?"

On the ascent of the path to Nore Hanger (Hascombe Hill) - "I just wanted to lie down and die."

On completion "The checkpoints were all in the wrong places, food should have been given at the bottom of the hills not at the tops!"
